**There are only two kinds of power in America:  
organized money and organized people**

*Heist* is a groundbreaking feature film about the roots of the American economic crisis and the continuing assault on working and middle class people in the United States. *Heist* unflinchingly reveals the crumbling structure of the U.S. economy – the result of four decades of deregulations, massive job outsourcing and tax policies favoring mega-corporations and wealthy elites, implemented by both Republican and Democratic Parties.

After detailing how the economy has been derailed, *Heist* offers a robust Take Action section with real world solutions and footage from the Occupy Wall Street movement – an essential primer for everyday Americans to participate in the restoration of economic fairness and our democracy.
