RE: SF 2404 companion bill

Dear Representative _____,

As a constituent of your house district (and *[insert a personal connection to the House Rep. if you have one]*), I encourage you to co-author with Representative Raymond Dehn a companion bill to SF 2404.

Democracy of, by and for the people has been impaired by Supreme Court decisions that have granted artificial entities the same rights as people under the U.S. Constitution. We are all effectively weakened when artificial entities possess inalienable constitutional rights to influence public opinion, overturn public laws, buy public officials, and intimidate individuals and local communities.

The "We the People" bill is a resolution requesting the U.S. Congress to propose a constitutional amendment clarifying that the rights protected under the Constitution are the rights of natural persons and not the rights of artificial entities and that spending money to influence elections is not speech under the First Amendment.

Please let me know whether or not you plan to support this bill and whether you plan to co-author this bill.

Sincerely,

John Doe

Dear Representative [last name],

We know that money is not speech, and corporations are not people. This is why, as your constituent, I strongly support Minnesota's SF 2404, and I hope you will support a companion bill and even co-author it with Representative Raymond Dehn. Please let me know your intentions.

Sincerely,
[your address]
